About This Game

Have you ever wanted to compete in an entirely illegal underground sports game operation between three competing companies for the great honor of your tech!? Enter the Shadow Circuit. Doskoi, Hachimau, and Ikaros63 have shareholders in this year's tournament -- and you are their representative contender. Face off against the amalgamation of the millenia's newest tech, and prove once and for all which company is superior. Utilizing your gravity whips and anti-G suit, compete for victory in a battle of attrition and points in this high-octane sport.

Features:

- Launch the ball into the other person's goal with your Gravity Whip.
- Play in Zero-G space, where the only forces that affect the ball are the Gravity Whip and the Gravity Wells
- Ionize the opponent AI, the opponent's goal, or a Gravity Well for different, helpful effects (will be fully implemented in the near future).
- Compete against a competent AI that will keep you playing for hours.

What's Next?

As we continue to develop the game, we hope to implement new game modes and further tweak the AI.

About Us:

A collaboration amongst a tight-knit group of senior college students, boldly going beyond what they have learned, picking up Unreal, and aspiring to create a unique and successful VR experience.

I like this song and a story. AWESOME DLC WOULD RECOMMEND. I had to change my reveiw! You can now change the sensitivity!!! Such a releif!. This was a fun hidden object game good for a few hours of fun.. Harumm, There isn't much for balance, The upgrades are borderline pointless and it's just another mindless clicker game.

Frankly the boost system is aggravating, there are 2 good boosts and the rest are just piles of garbage in the long run. Hope you like waiting for them to spawn and getting a click shower when you really needed fight unemployment!. Interesting Idea
+Okay Price

- Badly developed
- Guns feel like peashooters
- Gives an achievement "Headshot!" But headshots do as much damage as bodyshots.
- Not good

1/5

Decent price, interesting Idea, terribly made. Nothing in this game feels good aside from the idea. It's like you're shooting a Nerf gun and your enemies fall down because they pity you.

. Minecraft > PCM > other games

The best unofficial sequel to Black Knight 2000 in the business.. Well it gets boring pretty quickly and is set out for more like a browser game. But the soundtracks are pretty cool!. This game is absolutely adorable and heartwarming. This game forced me to have quicker reflexes and better timing, so kudos to the parry system. I hope that the DLC gets translated into English soon because this game has to be one of my favorite JRPGs. It does suck that there is no written guide or play-through of the game, if someone ends up getting stuck at some point. The fighting system is pretty simple, so that's a plus. The one thing I do dislike is the fact that you do not know the health bars of your enemies and bosses - I'm over here spamming the Holy Arts forever in order to kill something. Overall, the game is beautifully drawn and rendered. The soundtrack is so peaceful and calming. I definitely recommend this game to players who enjoy maximum cuteness. Also, don't get confused but the story is broken up into two acts. The first act is Mylne and the Forest Gift and the second act is Mylne and the Strange Cavern.. Straight omg memories, remember worms, I sure do.

✔️ Was really surprised when this went on sale for as little as \$3.

✔️ The voices are still funny relating. "Shaken not stirred." as a James bond reference.

✔️ I personally enjoy the 3d world.

✖️ Story is literally a joke, it's a worms game.

✖️ You will put this down over time as multiplayer is dead in 2018.

✖️ Buy on sale.

. Considering Puzzle Galaxies describes itself as "groundbreaking", the game has little to offer besides its core mechanic. As soon as the game introduces the mobile enemies a few levels in, you have basically seen the whole game. Additional difficulty only comes from a larger playing field, more different symbols, and faster enemies. There are long stretches of game where the difficulty doesn't change at all. The content stretching goes so far as requiring the player to play a level twice to complete it, but then again, does it really matter if I have to play 2 identical levels, or one level twice?

The only reason why I didn't refund the game is that it costs below 1€20, so why bother.. The game is in a deplorable state, the community is toxic as hell, people spamming the chat to make people lag, people EVERYWHERE I literally couldn't see anything in a town, almost no resources available after T4 because so much people are farming them.

Free-to-play killed it. I loved the simple yet complex puzzle/management game that was Train Valley. This sequel is already appearing to top the predecessor by a new variety of level styles and different resources to manage. I can't recommend such a cheap and fun game enough. The music is also extremely relaxing!. Hi,

I've played over an hour and at the start the tutorial does need some work but there is one which is a rare thing in early access games. The graphics have a nice look and the game plays well for a first release though not without some bugs / annoyances. The game has potential and this will depend on how fast the next patches are and what the roadmap is going forward. I've posted a video showing off my thoughts, if you are interested check it out @ <https://youtu.be/uS-GykUT-Jw>. planes are parked against buildings? cant move to fly them!.. STEER AWAY FROM THIS GARBAGE GAME, EVEN IF YOU HAVE A COUPON!!!!

-OBJECTIVES AS CLEAR AS MURKY WATER

-MONSTER AI MORE STUPID THAN A KINDERGARDENER

-I WAS MORE SCARED WATCHING MONSTER INC THAN THIS **** GAME

-50 CENTS BUT A BAG OF CHIPS GIVES MORE VALUE

CONCLUSION- AVOID GAME!!!!!!!!!!
